REASONS FOR ALLOWANCE

1. This Office Action is responsive to the RCE filed on 12/31/03.
2. Claims 30-33, 43-46, 53-83, 85-99 and 104-155 are allowed.
3. The following is an examiner's statement of reasons for allowance:

As per independent claims 30 and 43, Kiriya (5,729,210), prior art of record, teaches the claimed system except that he fails to disclose a message encoder in communication with a message builder to encode a message constructed by said message builder, in combination with other limitation recited in the claims. It would not have been obvious for one skilled in the art to combine Kiriya with other prior art of record in order to arrive at the claimed invention.

As per independent claims 53, 61 and 106, none of prior art of record teaches or suggests a method and associated system comprising step/means for performing a validation procedure, in association with limitations as recited in the claims.

As per independent claims 69 and 85, Kiriya teaches the claimed system except that he fails to disclose a system comprising a transmitter and a slave controller wherein said slave controller outputs over a communication link an identifier of said slave controller for transmission to said transmitter, in combination with other limitations as recited in the claims.

As per independent claim 104, Kiriya teaches the claimed method except that he fails to disclose a step of outputting from a transmitter over a first communication link the identifier of said transmitter for transmission to a slave controller, in combination with other limitations as recited in the claim. It would not have been obvious for one skilled in the art to combine Kiriya with other prior art of record in order to arrive at the claimed invention.

Art Unit: 2631

As per independent claims 107, 122 and 130, none of prior art of record teaches or suggests a system comprising a processing unit, in association with limitations as recited in the claims.

As per independent claim 115, none of prior art of record teaches or suggests a method of synchronizing addresses with steps, in association with limitations as recited in the claims.

As per independent claims 138 and 145, none of prior art of record teaches or suggests a system comprising a signal transmission unit, in association with limitations as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The applicant is hereby noted that the references "European Search Report dated 28.07.03" listed under section OTHER DOCUMENTS of the IDS filed on 12/31/03 have been considered by the examiner, but are not initialed by the examiner in the corresponding form PTO-1449 because they are not considered as prior arts.
